**LICENSED NURSERY**

We wish to thank all our friends and customers for the steadily increasing business you have given us each year and hope we can continue to merit your patronage.

This list contains PREPAID prices and short reliable description of varieties which have proven satisfactory in our own gardens. We try out most of the new Glads but only list those which show merit. Many of the varieties, both old and new, found in the ordinary Seed House or Bulb Catalog have been grown by us and discarded. These may be fine under ideal growing conditions—good soil, cool summer days and irrigation—but are not worthwhile for the average garden in our climate.

We believe you will find our prices as low or lower than quoted elsewhere for good Northern Grown bulbs. We were sold out early again last season on all salable sizes and had to return several orders. Although we have considerable more stock this year we expect to again be short before the planting season is over. So early orders are advisable. You get the pick of the stock and you are sure of getting what you order.

We grow many Glads not listed here. If you do not find in this list what you want, we may have it in small quantity or can obtain it for you at a reasonable price.

If you wish to grow Glads for cut flower sale, we will be glad to suggest varieties and sizes on which you can make the most profit. State approximate amount you care to invest in planting stock and describe location—on Highway, Farm, Village or City. There is always sale for good Glad blooms.

**TRUE TO NAME; HEALTHY YOUNG BULBS**

INSPECTED AND LICENSED FOR SALE BY THE NORTH DAKOTA STATE NURSERY INSPECTOR

**Trade Sizes of Bulbs:**

No. 1.....	1½ inch or more
No. 2.....	1¼ inch to 1½ inch
No. 3.....	1 inch to 1¼ inch
No. 4.....	¾ inch to 1 inch
No. 5.....	½ inch to ¾ inch
No. 6.....	under ½ inch

Standard trade practice is to list as follows:

Nos. 1 and 2 are large bulbs  
 Nos. 3 and 4 are medium bulbs  
 Nos. 5 and 6 are small bulbs.

Our bulbs are graded accordingly, except we do not ship any No. 6's with the small. If you want No. 6 bulbs, you should only pay what they are worth. We issue no printed price list for Nos. 5 and 6 and bulblets, but will quote prices on what we have at your request. Give varieties and quantities wanted. The largest bulbs of the grade ordered, which we have on hand, are shipped. Large bulbs are generally planted for exhibition spike growing. Medium are usually bought by the commercial cut-flower growers, and with most of the varieties will give very nearly, if not as good a spike as the large size; and at a very considerable saving. Small bulbs (No. 5) of most kinds give fair bloom and make fine bulbs for next year and yield the most bulblets; but bloom later than medium and large. Days-to-bloom given for most varieties are for large bulbs, are approximate and for comparison only. 70 days is a very early Glad, and over 105 days is late for this region.

**TERMS: CASH WITH ORDER, PLEASE. NO SINGLE ITEM LESS THAN TEN CENTS, OR ORDER LESS THAN ONE DOLLAR.** Remittance may be made by Post Office or Express Money Order or personal check. Money Order fee allowed for in extra bulbs. **NOT RESPONSIBLE FOR CURRENCY IN UNREGISTERED LETTERS.**

All stock offered and orders accepted subject to prior sale.

**5 BULBS at 10 RATE! ALL PRICES** in this list are PREPAID to you. Generous count and extras on all orders. The larger the order, the more extras.

**NO SUBSTITUTION OF VARIETIES WITHOUT PERMISSION**

Orders shipped PREPAID about March 30th. Or when weather permits. Orders of \$5.00 or more may be shipped by EXPRESS PREPAID whenever purchaser desires, as Express is insured against freezing. Parcel Post is not safe in cold weather as it cannot be insured against frost.

**SOUND NORTHERN GROWN! THRIPS FREE! TRUE-TO-NAME BULBS!**
